

MAULIDA CAHYA KURNIA

Semarang, Indonesia | +6285602432362 | cahyamaulida011@gmail.com | <https://www.linkedin.com/in/maulidacahyakurnia/> | [Portfolio](#)

Computer Science student specializing in **Applied Machine Learning** and ML-based application development. Skilled in **Python** for data preprocessing, modeling, and evaluation using **Pandas**, **NumPy**, and **scikit-learn**, with experience building web interfaces in **Next.js** and deploying via **Vercel**. Completed the **IBM Machine Learning Specialization (Coursera)** and selected as a **Top 20 Final Project Winner** in the **Hacktiv8 x IBM SkillsBuild** program, currently seeking a **Machine Learning/AI Internship**.

ACHIEVEMENTS

- **Top 20 Final Project Winner** – *Student Developer Initiative (Hacktiv8 x IBM SkillsBuild), Code Generations and Optimization*
- **Final Project Score: 89.42** – *Code Generations and Optimization transcript (Issued: Dec 19, 2025)*

CERTIFICATIONS/TRAINING

- **IBM Machine Learning Specialization (Coursera)** – IBM (Completed: Oct 10, 2025) *6-course program: Exploratory Data Analysis, Supervised Learning, Unsupervised Learning, Deep Learning, Reinforcement Learning, and a Machine Learning Capstone.*
- **Student Developer Initiative (Hacktiv8 x IBM SkillsBuild)** – *Code Generations and Optimization (Dec 2025)*
Generative AI-assisted workflows for code generation and optimization (12 hours/16 JP).

PROJECT EXPERIENCES

IDX StockRec – Stock Recommendation Web App (IDX) *Dec 2025 – Present*

- Built a **FastAPI-based** stock recommendation system with Yahoo Finance OHLCV ingestion and multi-horizon outputs.
- Implemented explainable rule-based scoring with liquidity/slippage estimation, “gorengan” risk detection, and corporate action flags.
- Developed an HTML UI with ticker search/watchlist and post-trade logging for evaluation.

Travel Recommendation App “TravelEase” *May 2025 – Jun 2025*

- Developed an interactive travel recommendation web application using **Streamlit** to assist users in finding destinations based on preferences.
- Utilized **Python**, **Pandas**, and **NumPy** for data processing, filtering, and ranking travel destinations by budget, location, and activity.
- Designed a user-friendly interface with dynamic data visualization to enhance user experience.

SoLearn – Task Management Web App (Top 20 Final Project Winner)

Aug 2025 – Sept 2025

- Built a task management web app with full **CRUD functionality** (add, edit, delete, complete tasks) using HTML, CSS, and JavaScript.
- Implemented data persistence using **LocalStorage** to maintain tasks across sessions.

Campus Lost Item Reporting Platform “SITEMU”

Oct 2025 (1 week project)

- Built a campus web app for lost-and-found reporting with image posting, search, and category/location filtering.
- Developed responsive frontend using **Next.js 14 (App Router)** and **TypeScript**.
- Integrated **Supabase** (PostgreSQL, Google OAuth, storage) and added an admin dashboard with **Recharts** visualization.

Digital Platform for Small Businesses “FiaCahaya Snack”

Dec 2024 – Feb 2025

- Built a bakery ordering and product catalog website using **Next.js 14**, **TypeScript**, **TailwindCSS**, and **Framer Motion**.
- Integrated an AI assistant (**OpenAI gpt-4o-mini**) for ordering guidance and snack box recommendations.
- Implemented WhatsApp handoff flow for price confirmation and checkout support.

EDUCATION

Dian Nuswantoro University Semarang

Bachelor of Computer Science – Informatics Engineering

(Sept 2023 – Present)

- GPA 3.59 out of 4.00
- Coursework: Data Structures & Algorithms, Software Engineering, Machine Learning Fundamentals, Database Systems, Web Development.

SKILLS

- **Machine Learning**
 - Python (Pandas, NumPy)
 - scikit-learn (basic)
 - Data preprocessing & feature preparation
 - Model evaluation fundamentals (Accuracy, F1-score, RMSE)
 - Machine learning fundamentals (IBM ML Specialization)
- **Deployment & Engineering**
 - Next.js (Beginner – built & deployed projects)
 - Vercel Deployment
 - Git & GitHub
- **Database & Tools**
 - MySQL
 - Jupyter/Google Colab
 - VS Code
- **Soft Skills**
 - Problem Solving
 - Critical Thinking
 - Communication
 - Teamwork
